## **I-Introduction**

### **Transportation Improvement Program (TIP)**

#### **Purpose and Development**

In accordance with 23 CFR 450 subpart C the Morgantown Monongalia Metropolitan Planning Organization (MMMPO) is charged with developing the local Transportation Improvement Program (TIP) documenting the expenditure of Federal Funds on regionally significant transportation projects. Two primary purposes of the TIP are to monitor the progress of implementing the area's long range transportation plan, and to provide an opportunity for the area's stakeholders to comment on the expenditure of Federal Funds in the area. Federal regulation requires that the TIP be prepared as part of a continuous, cooperative, and comprehensive planning process, that includes an open public involvement process. The TIP must also be fiscally constrained and consistent with the area's Long Range Transportation Plan. To meet these requirements the MMMPO prepares the draft TIP in cooperation with the West Virginia Department of Transportation, Mountain Line Transit and other area institutions and stakeholders. This TIP includes a list of both public transportation and highway projects programmed for implementation by WVDOT and Mountain Line. In addition to currently scheduled projects the TIP includes a list of projects completed in the area over the last five years. This is consistent with the requirements of Federal legislation.

The MPO relies on the State of West Virginia's ongoing budget analysis to assure that the programmed projects are fiscally feasible in the short term. The list of currently programmed projects is the primary purpose for developing a TIP, it provides local decision makers with the opportunity to track the progress of implementing the long range transportation plan and it provides the public with an opportunity to comment on how Federal funds are spent for transportation purposes. The Priority List expresses the order in which the MPO would like to see the long range transportation plan's projects implemented in the future. Given that the WVDOT is the primary funding agency for projects in the MPO area, the list of programmed projects has been prepared and reviewed by WVDOT to insure that the list is financially feasible given the future year funding anticipated by WVDOT.

The Mountain Line Transit System as the grant recipient for FTA 5307 Urbanized Formula funds is primarily responsible for the development of the Transit portion of the Local TIP.

It should be noted that due to the recent passage of the Moving Ahead for Progress Act for the 21<sup>st</sup> Century (MAP-21) this TIP differs significantly from previous TIP's developed by the MPO in that the number of funding categories has been reduced significantly. This was primarily done by eliminating categories and making activities that were eligible funding in the eliminated categories eligible in one of the remaining categories. For example the National Recreational Trail program became part of the Transportation Alternatives category. While many funding categories were eliminated the funds available to those categories remain available until the obligation for these funds expires. For ease of use the summary of Federal funding in this TIP combines funds available in the previous funding categories into the appropriate MAP 21 funding category. However, the individual project has the appropriate funding from previous legislation noted in its description so the public may accurately identify the projects funding source.

### **Public Involvement**

Once the draft TIP is prepared it is submitted for review by the public during a thirty (30) day public comment period and by the MPO's Committees. The Technical Advisory Committee made up of technical staff from WVDOT and the area's municipalities, and the Citizens Advisory Committee which includes representatives of the general public as well as groups specifically interested in bicycle and pedestrian planning. The results of the Public and Committee comments are then provided to the MPO's Policy Board for their review prior to final adoption of the TIP.

## **II-2013 Morgantown Monongalia MPO Committee Membership**

### **Metropolitan Planning Organization Policy Board**

#### **Officers**

**Chairman, Joseph Statler, Blacksville**

**Vice Chairman, Anthony Giambrone, Star City**

**Treasurer, Mayor Patricia Lewis, Granville**

Secretary, Bill Austin, MPO Director ex officio

Mountain Line Transit, Dave Bruffy

City of Morgantown-Mayor Jim Manilla, Councilman Bill Byrne, Councilman Wes Nugent,

Monongalia County Board of Education-Michael Kelly

Monongalia County Commission-Commission President Eldon Callen,

West Virginia Department of Transportation-Division of Highways-Perry Keller

#### **MPO Citizen's Advisory Committee**

Maria Smith, Christiaan Abildso, Frank Gmeindl, Roy Nutter, Ed Sneckenberger, Bill Rice, Ed Delaney, James Gaston

#### **MPO Transportation Technical Advisory Committee**

Federal Highway Administration and Federal Transit Administration-Kevin Burgess, ex officio

Town of Granville, Ron Snyder, Town Manager

Monongalia County Board of Education, Irv Schuetzner

Monongalia County, Richard Wood, Planning Director

City of Morgantown, Damien Davis-Asst. City Eng., Chris Fletcher-Dir. of Dev. Services, Terry Hough-City Eng.

Morgantown Monongalia MPO-Bill Austin, ex officio

Mountain Line Transit, Dave Bruffy

West Virginia Department of Transportation-Perry Keller, Bryan Radabaugh, Foad Shoukry, Richard Warner, Donald Williams, Alanna Slack

West Virginia University, Clement Solomon

Morgantown Utility Board-Tim Ball

Town of Star City, James Gaston
